Project Management and Contract Administration Galway

Project Management and Contract Administration

Clients often require construction professionals to manage a building project from inception to completion on their behalf. Chartered Building Surveyors are suitably trained for this function. Our surveyors can provide the expertise needed including...

- 1. Tender and procurement route advice.
- 2. Nomination of contractor based on tender submission.
- 3. Preparation of construction contracts.
- 4. Health and Safety advice and information.
- 5. Monitoring of works in progress.
- 6. Issue of certificates of compliance.
